Hello.

I have added the emails to our distribution list. EPA does not have any public meetings planned for the near future, but I just received the attached notice for a meeting of the Community Liaison Panel. I believe the meeting you referenced in your email was for that group as well. I would suggest asking for minutes of that meeting from the contact on the attached announcement.

Best regards,
Cynthia Peterson

Subject: CFAC site

Hello Cynthia,
Could you please include the email recipients on this email on any future meeting notifications and all public information regarding the CFAC sites and remediation plans? I see from the Hungry Horse Newspaper that they recently had a meeting that we would have attended had we known in advance of the meeting.

We were also wondering where we could get the notes from these meetings?

Thank you.
